

AM TURRET-ID

HYBRID PEDESTAL SYSTEM

Our AM TURRET-ID pedestal system is a cutting-edge solution that combines the best of both AM (Acousto-Magnetic) and RFID technology.

The AM TURRET-ID offers superior article protection, versatility for any retail store and provide retailers with a soft transition to article surveillance with additional protection and RFID inventory solution.

When paired with our RFID ceiling antennas it provides security over ultra wide entrances up to 11.5 ft. In such configuration retailers will benefit for clean and welcoming entrance while still keeping their merchandise well protected.

Our system supports remote connectivity and data collection and can also be connected to our **STOREMONITOR** cloud platform for advanced system analytics and store performance reports.

In addition to all these options and features, the system is equipped with our new smart **ECO** MODE that saves up to 35% of the EAS energy consumption. This way we help to reduce our customer's unnecessary utility costs, increase lifespan of the system and stay environmentally friendly

Features & options:

- Remote maintenance and diagnostics
- Inventory management option
- Detection of AM labels 58kHz
- Detection of RFID tags (UHF)
- MetalMagnet detection
- Visitor counting
- Advertisement panel
- Smart directional alarms
- Jammer detector
- Tag too close indication
- **ECO** MODE

Remote connectivity and data collection are standard inbuilt features of our systems. It ensures that our systems are not only easy to install but can also be serviced and maintained remotely with fast response and without unnecessary travel costs.

An **advertisement** panel on your security system can be an additional sales tool with our “easy slide” access to printed banner replacement. An identical pedestal but without the opaque panel, the Classic X pedestal features a transparent acrylic surface that blends in with the surrounding space.

Providing insights into loss prevention events at an item level allows retailers to make smarter decisions. Knowing when and where items are going missing, as well as which items are most at risk, can help retailers to effectively prevent loss and increase security in high-risk areas.

AM ACE Power Box

Can power up to 2 pedestals

DIMENSIONS (H×W×D)	1.8 x 5.3x 6.7 in
WEIGHT	2.0 lbs
CODE	AcPoBx
OPERATING FREQUENCY	57–59 kHz Power – 85–265 V, 50–60 Hz
CONSUMPTION	approx. 30 W

RFID reader

Can power up to 8 antennas

DIMENSIONS (H×W×D)	1.0 x 6.9 x 3.5 in
WEIGHT	0.5 lbs
CODE	REIDRe
OPERATING FREQUENCY	902 – 928 MHz US
CONSUMPTION	max. 12 W
